## About ALL IN ONE Integrated System

Our all in one integrated system combines an **Interactive Whiteboard** with **Short-Throw/Long Throw Projector** that virtually eliminates shadows and glare. This system is having inbuilt **Computer, Amplifier, speakers, keyboard and Mouse with green board**. This combination delivers a precise and intuitive touch experience along with stunning image quality and an interactive widescreen surface for teaching and learning.

### Key Features

#### Quality of Hardware:

Most important for long time user. We have made this board with the combination of steel and having a coating of ceramic on steel. Due to which our board is Scratch proof, water proof, fire proof & zero maintenance.

#### Easy to Use:

For using this IWB you do not need any special pen. It can be operated by your finger or any pointing device. You can play any lesson with your finger on this whiteboard with ease.

#### Image quality:

Projector is having high level of brightness and contrast. Minimum 3000 lumens allow for use in the brightest of classroom environments enabling video, data and lesson files to look crisp and bright from every position in the room.

#### Multi touch experience:

Multi User can work simultaneously and write with their finger on whiteboard with use of interactive whiteboard software.

#### Free Style Interaction:

The system enables two users to instantly start working together without having to switch into a separate multiuser mode.

#### Interactive whiteboard features:

Can annotate any kind of image, videos, Power Point and any format of file. Can highlight on any file from some special angle. You can insert any kind of image, video on whiteboard software. Can record whole session with voice. Record of every session. Export any lecture to PDF, image or video format.

Technology we use world class touch technology for our white board which can be used with finger and any other object.

Touch accuracy :- <2 MM

#### Size of all in one System

Total Box Size :- 108 (W) x 48 (H) x 4 (D)

Board Size :- 69 (W) x 48 (H) x 1 (D)

Computer Box :- 12 (W) x 48 (H) x 4 (D)

#### Active Screen Area

Maximum Projection screen is

:-65 (W) x 44 (H)

:-78 Inches Diagonal

Aspect Ratio :-4:3

#### Connectivity of Board

USB connection to get power from computer

USB 2.0 and 3.0 Port

No Driver required (Plug n Play)

It supports windows

#### Specification of Computer

Inbuilt document camera

2GB RAM and 500 GB Hard-Disk

Core2duo Processor

Keyboard having inbuilt touch mouse

System can be customized

1. Specification and design are subject to change without prior notice
2. Warranty limited to the technical issues
