

# Alfa A16i

## 5M Pixel

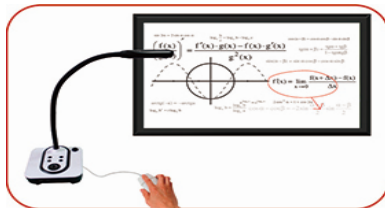

High quality 5M pixel camera sensor captures vivid images of documents, 3D objects, and live movements.

## 25 fps Framerate

Experience crystal clear, blur-free images with vivid, true-to-life colors during any live demonstration through HD1080P at 25 fps framerate.

## Onboard Annotation

Annotate, draw or mark over live or saved images.

## One-touch Onboard Recording

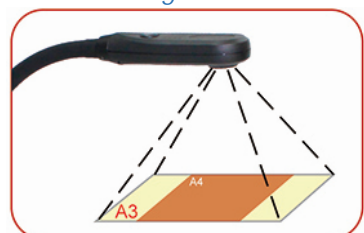

One-touch recording instantly saves video and audio in built-in 2G storage.

## High Definition Output

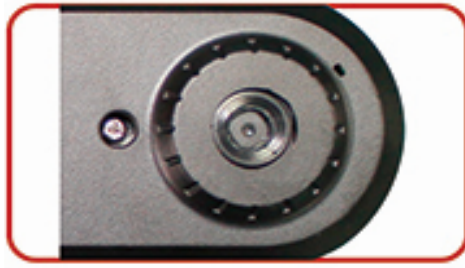

HD1080P resolution ensures crystal-clear image displaying.

## Wide Shooting Area

Special-designed lens features shooting area up to A3 size ( 11x17 ins.) for open textbooks, oversized documents and 3D objects.
